

KM BAND KNIFE

MODEL : KBK-700 / 900

Knife Speed is controllable as desired according to the type of material with built-in INVERTER SYSTEM

Control Box and Inverter

V Sharpener

FEATURE

1.VARIABLE SPEED CONTROL (INVERTER SYSTEM)

Knife Speed is shown on the Digital Indicator and easily controlled by INVERTER SYSTEM according to they type of material. Inverter Speed Control System provides smooth cutting at the high and low speed.

2. AIR FLOATING TABLE

Air Mat is formed on the table to move cutting material lightly, smoothly and provides easy cutting without collapsing the pile of fabrics.

3. KNIFE COOLING SILICON PACK

Silicon Pack is easily removed and installed. It eliminates the fusion of chemical yarn and interlining cloth yarn.

4. EASY KNIFE EXCHANGE

A Black grip knob at the right of the knife cover provides easy knife installation and removal. Knife is loosened by turning the knob clockwise and tightened by turning counterclockwise.

5. AUTOMATIC SHARPENING SYSTEM

Originally designed Automatic Sharpening Device is equipped. Various grits of sharpening stone are available to the material.

6. CARRYING CASTER

Carrying Caster is equipped for easy removal to meet the requirement of relocation.
